Help the Burn How Garden House Hotel to Fix the Fells. Thank you for your support

The outstanding natural beauty of Cumbria attracts over 19 million tourists, who come to enjoy everything that the area has to offer. Many of these visitors come to walk the fells. But the sheer number of visitors leaves a mark on the landscape.

In order that we and our guests can continue enjoying the Lake District, we feel that supporting conservation in the Lake District is vital for the future of this beautiful landscape.

As part of our support, we continue to be members of Lake District Foundation. In particular we are supporting the Fix the Fells project through the 'opt out' tourism and

conservation working in partnership scheme. Guests will be asked if they would like to make a donation to the project at the end of your stay. For every donation you are helping the 8 rangers and 130 volunteers who are on the fellside repairing paths in all weathers all year round.

According to the Fix the Fells website: "Since 2002 skilled footpath repair teams and volunteers have been using both traditional and cutting edge techniques to maintain and repair the Lake District's upland footpaths. There are now 344 paths totalling 661 km or 410 miles identified for repair work, maintenance, or monitoring."

The Burn How has been supporting conservation in the Lake District for many years and have raised over £32,000 to conservation projects across the Lake District.

So, just by staying at The Burn How, you are all helping to Fix the Fells. Thank you from Fix the Fells and the Lake District Foundation for your support.
